## Lightweight baby travel solutions

A holiday in the sun or a weekend away with baby needn't be a major expedition, and Koo-di has the perfect solution for an afternoon nap or overnight sleep while you're away from home.

The Koo-di Pop-Up Travel Bassinette is incredibly lightweight and compact for easy travelling. It folds into its own small carry bag and – like it says on the label – pops up to provide a sleepy haven in seconds.

Weighing less than 1kg the Pop Up Travel Bassinette is made with breathable polyester and cotton fabric panels and also includes a padded mattress, removable canopy and integrated mosquito net to protect baby from nasty nibbles.

While the Pop-Up Travel Bassinette is suitable from birth to around six months, older babies can also be assured of a good night's sleep on holiday with the Koo-di Pop Up Travel Bubble Cot. Larger at 100cm x 60cm when open the Bubble Cot is still extremely compact when folded, weighs less than 3kgs and has exactly the same fabulous features.

Both of Koo-di's Pop-Up travel solutions provide a clean, safe and comfortable place for baby to sleep and are so to carry, will be top of your list only on holidays, but for days friends too.

Ends

compact and easy of priorities not out and visiting
